

2019 Garden Events at Haddon Hall

New Garden Workshop Series

The tutor for these courses has over 15 years experience in horticulture and has previously taught for the RHS. These workshops are a fabulous way to boost your knowledge and skills for your own garden; form excellent revision support to those studying Level 2 Horticulture courses and make an excellent gift for a friend or loved one.

Workshop ticket price includes admission to the Hall & Gardens

Understand Your Soil

Saturday 25th May 10.30-3.30

Get the most out of your garden and understand how to work with your soil in this hands-on workshop. Bring a sample of your own soil and join our Head Gardener who will show you how to test your soil's pH, structure, texture and nutrient content. Take away a bespoke prescription for your soil featuring recommended organic soil improvers and feed. The day will cover soil analysis, soil improvement and plant nutrition. Includes the option to have lunch and a tour with the Head Gardener.

£55.00 workshop only

£75.00 workshop + lunch & tour of the gardens

Organic Pest & Disease – Latest Threats & Innovations

Saturday 22nd June 10.30-12

£35.00

A half day session exploring pests and diseases, both old and new, along with their organic control methods.

Hear about the latest threats that face our gardens. Head Gardener Lindsay will share some of our organic techniques to help you defend your garden against these newer threats as well as tried and tested methods for the usual suspects such as slugs and vine weevil! We will also discuss some of the recent developments to combat these new challenges. Please do not bring diseased material or pest samples to the workshop but please feel free to bring photos if you have a specific query.

Propagation

Saturday 14th September 10.30-3.30

This hands on workshop will cover all the basic principles of cuttings (root and stem), divisions and layering across a range of popular garden plants. Participants will have the opportunity to take home some of their own cuttings. All equipment and materials are provided but feel free to bring your own secateurs. Course covers the use of greenhouses and coldframes as well as selecting plant material and growing media to support your propagation at home.

£55.00 workshop only

£75.00 workshop + lunch & tour of the gardens
